

BREAK TIME

FIFTH PARTNERS ' MEETING

ITALY with its referent Michelina Petruzzi , coordinator of a KA229 BREAK TIME, as decided in the previous meeting with partners, organizes a meeting with only the partners' coordinators teams to discuss about:

1. OFFICIAL LOGO
2. FOLLOWING PROJECT STEPS IN 2021

On 22 January 2021 at 6pm the Erasmus partners' teams , the four coordinators, met online in a google meet to the link meet.google.com/uuj-prpu-jba to discuss about LOGO of the project BREAK TIME.

1. The coordinator informs about the difficulties to create a logo starting from the two ones which won the challenge on 22 december. A discussion starts about focusing on the main topic of a few participation of some teams' colleagues in the previous meeting and a lack of equality/democracy in voting and also impartiality in the number of logo for each Country. On the other hand to mix two logos created many difficulties about digitalization, colours, originality and fundamental cruxes that are : what the logo has to communicate to other people and how to have a unique product made by students. At the end of discussion the coordinators decided to repeat the challenge and point some rules:

1. Choose only 3 logos for each Country
2. Don't vote our own logos
3. ONLY Two teachers for each Country can vote

After that the coordinator invites Mutlu Altay from Turkey to create a Google module and to share the link in our group. Each coordinator sent the link to only one colleague from his/her Country and the challenge will be done. The challenge is about 15 logos (3 for each Country) realized by students , it will be made on google form to create impartiality and to be faster in the choice.

2.Coordinators explained all the difficulties linked to this PANDEMIC PERIOD linked not only to the difficulty everyone have to move for mobilities but also the difficulties to motivate students and teachers to be involved in the ERASMUS project . Each Country has different situation linked to online or in presence teaching. Turkey will be on a forced holiday till 15 February, Romania don't know when they will be back to school and Italy too. Estonia is having a school days half in presence and half online and Spain has never closed school, so it is difficult to have equal opinion. The only sure position is that we won't travel for mobilities till the situation all round Europe change.

For these reasons coordinators decided to try to organize an online meeting on google with 5/7 students and 2/3 teachers for each Country to present our own schools and Cities and to organize an online game during the meeting to improve motivation and to be aware how Erasmus + can create a community of learning.

After that they decided to meet during the last week in February to organize the meeting in the first week of March.

The competition was made during weekend and the results were shared after everyone voted on Sunday night on whatsapp group and the LOGO which had more points was the 2nd one presented by Estonia.

So grateful for my colleagues to cooperate.
